### 1/18 Scale Model Diecast Replica

The highly detailed cabin interior provides the authentic look and feel of this classic car.

The powerful 5.4-litre V8 engine has been replicated in great detail on this model.

The working front suspension is a feature amongst many others visible on the Chassis.

RRP \$299.00  
Available 1st Quarter 2024

**1/18 Scale Model Diecast Replica**

The interior is beautiful, steering wheel and detailed instrument cluster on the dash is seen here.

Superbly detailed 179 red engine and surrounding bay, with etched metal bonnet hinges and full detail.

Released 26th August 1963, the EH has proven to be one of Australia's all-time most popular cars selling a record 256,959 units. With a completely new more powerful engine, clever styling changes and a price matching the EJ at \$2102, this made the EH Holden value for money. It was these factors that created much interest prior to its release and lead to quick sales giving it the title of Australia's fastest selling car ever.

# HOLDEN VP COMMODORE

## 1993 BATHURST 2ND PLACE

**LIMITED EDITION OF 1000 PIECES WORLDWIDE**

The 1993 Bathurst 1000 saw almost half the field, 22 out of 45 starters, fail to complete the race due to some of the wettest conditions ever seen at the Mount Panorama Circuit. It quickly turned into a race between the Commodores of Larry Perkins/Gregg Hansford and Mark Skaife/Jim Richards. Never had the two crews at the head of the race been so closely matched. It was exciting, Hansford holding his nerve against Richards to keep car 11 in the lead to the pit stop on lap 130 where Perkins reentered the race to carry on the battle. Richards pitted on lap 147, he rushed back out but the task seemed hopeless, only a slip by Perkins would offer him a chance, but it never came. It was a classic contest that lasted all day and ended with Perkins/Hansford taking the flag 10.54s in front of Skaife/Richards in one of the best races seen on The Mountain.

### 1/18 Scale Model Diecast Replica

Amazing interior with the dash, gauges, switchbox, wheel and much more.

Replicated Carbon Fibre on air box with very detailed V8 engine below. The bonnet has telescopic struts.

# FORD XC UTILITY

## PINE N LIME

### 1/18 Scale Model Diecast Replica

Released in 1976, and produced until 1979, the XC Falcon was the last face lift of the third generation Falcon. The design was softened from the previous models to reduce the coke bottle effect. Other design changes included a restyled grille and larger bumpers, the Fairmount also included modern looking rectangular headlights. The XC was first model Falcon to comply with new pollution regulations, but the new regulations did not reduce power output thanks to the Ford engineers.

The XC Utility was available in the Falcon or Falcon 500 models, both models were able to be personalized with many options. The GS Rally Pack could be added and included sports steering wheel, comprehensive dash instrumentation, 'NASA' bonnet scoops, slotted sport rims, driving lights, bumper over-riders and blacked out badges.

The standard XC Falcon Utility was available in a 3.3 litre engine and was able to be upgraded to either a 4.1 litre or 4.9 litre. The GT model was removed from the XC lineup, but the 5.8 litre was still available with the GT Power Pack option. The Power Pack also included 4 wheel disc brakes and limited slip differential.

**REPLICAS**

**1/64 SCALE DIECAST**

# FREIGHT SEMI

With the construction of multi-lane highways, single trailer transport has become one of the most practical ways to transport goods. Able to travel directly from point to point, Railways could not compete with the speed and versatility of the Semi Trailer. Most freight semi's were classed as a day cab. Day cabs were mainly used for their speed and their manoeuvrability in smaller spaces.

This exceptionally crafted model includes all the features you would expect from larger scales, including a comprehensive interior, flexible air hoses, soft rubber tyres and detailed chassis.

*Item No.12026 - Freight Semi  
Prime Mover and Curtain Trailer*

*Available 4th Quarter 2023  
RRP \$119.00*

**HIGHWAY REPLICAS 'Freight Collection' are Limited Editions and include numbered certificates.**
